

A One Stop Day for Your Garden and Yard – May 17th 1 – 7 *edible flint* and the Neighborhood Engagement Hub together!

When you order an *edible flint* garden starter kit for \$15, you will receive organic transplants grown by Walker Farms and WOJOs and organic seeds purchased in bulk and repackaged for your garden.

Each *edible flint* Garden Starter Kit contains 11 varieties of transplants (about 40 plants), potatoes, and 19 kinds of seeds – enough for about a 1500 square foot garden (30' x 50'). *edible flint* also runs a "swap" table.... if you know that you won't grow something or wish you had 4 more collard plants, you might browse and negotiate trades.

The transplants this year include:

Peppers	Rainbow Mix	Collards	Champion
Okra	Clemson Spineless	Watermelon	Sugar Baby
Cabbage	All Season Mix	Spinach	Space
Broccoli	Amadeus	Kale	Vates
Tomatoes	Sun Sugar	Tomatoes	Celebrity
Potatoes	Yukon Gold		

At the Neighborhood Engagement Hub Gardener's Corner, you will be able to purchase flowers (10 choices), herbs (7 different herbs), additional vegetables (8 varieties including entire flats of favorites), raspberry plants, grow bags, and more. Most packs are 4 plants ready to plant, and most flats are 24 plants ready to plant. You may choose to mix packs in a flat and pay the "flat" price. Use the order form to "assemble" your garden.

We order what you order – orders and payment due by May 8th.

This Corner benefits the Community Tool Shed where you can borrow equipment ranging from rakes and shovels to wheelbarrows to tillers.

There will be information booths, rain barrel use demonstration, compost making, Registration for library cards, herb drying, raised bed gardens and MORE!
