Good day Community Stakeholder!

I pray this email finds you well.

Flint Innovative Solutions strategically enriches the well-being of the residents of Genesee County and boosts access to community resources, and to this charge, you are closing the technology gap **with your help!**

We were recently awarded funds for the Community Foundation of Greater Flint to address the disproportionate impact of COVID-19 on African American and Latinx residents. We aim to provide;

1. In-person training for smart devices; Cellphones, iPhones, Chromebooks, and Tablets,
2. Virtual zoom training, and
3. Tutoring for K-12 students.

If you are interested in being a **training host site** for any of our programming and/or **receiving technology training** for your staff or constituents, please respond to this email by, **Thursday, November 5th**. Or complete this quick survey: <https://www.surveymonkey.com/r/FlintHOST>

~ Face mask, social distancing, and COVID-19 precautionary measures required ~

****If you know of a Genesee County student in need of academic support, please share this link to assistance: https://www.surveymonkey.com/r/FIS_Tutoring**

We are also looking for additional tutors, for more information visit our website for more information: <http://flintinnovativesolutions.org/tutoring/>

In partnership,
Athena
